

A large, stylized sunburst graphic in a golden-yellow color, centered in the upper half of the image. The sunburst has multiple pointed rays extending outwards.

SUNKÖY

A wide-angle photograph of a lush green agricultural field, likely a vegetable or crop field, with rows of plants stretching towards the horizon. The field is in the foreground and middle ground, with a clear horizon line. The sky above is filled with soft, golden light from a low sun, creating a warm, hazy atmosphere.

Taste from the Earth

About us

HVS GROUP is a Turkey located food company that offers its clients quality, good taste and naturalness with discipline and diligence corresponding to international standards throughout the whole production process. HVS GROUP makes food products ready for export from Turkey with SUNKOY brand for every customer's needs. In addition, HVS GROUP offers customers who want to import products into their countries under their own brands a comprehensive one-stop-range of services from design to quality assurance, from packaging to transport. The mission of HVS GROUP is to offer innovative products under its own brand to the consumers in Turkey and especially in international markets and to ensure a profitable and sustainable growth.

All the products in our portfolio are under our control at every stage of production until the final filling and packaging. Therefore, all certificates and analyses of our products comply with international standards. In this way we can offer our customers the desired quality, natural origin and taste. Among the products we export are sunflower oils, corn oils, canola oils and vegetable oils. Our range of products is constantly expanding. SUNKOY branded products in the HVS GROU portfolio are exported to the customers and distributed to end users all over the world.

Please contact us for any kind of information and inquiries regarding our export activities by sending an email to export@hvsgroup.com.tr or click on 'Contact us' and fill out the form on our website.

Sunflower Oils

Our sunflower oils are produced from the seeds of helianthus(sunflower) elaborately under high tech in modern facilities. We present our sunflower oils which are prominent as its rich Vitamin E property and delightful mild taste characteristics with the quality of SUNKOY brand to the customers.

Sunflower oil is used for cold and hot food, broiled food, fries and for more delicious salads and pastries.

Our sunflower oils are one of the most demanded products all over the world due to its healthy and nutritious properties.

Canola Oils

Canola oil known as the source of Omega 3 is one of the most demanded oil by consumers all over the World. It does not contain cholesterol as it is quite rich in Omega 3-6-9 and less in unsaturated fatty acid compared to other oil kinds. It has been proven by some scientific studies that a balanced acid ratio increases glucose tolerance as well as balancing insulin resistance. It takes an important role to fight against arteriosclerosis as it reduces cholesterol level and strengthens the immune system.

It is used especially for broiled food, fries and baked food.

Olive Oils

Olive trees give olives a specific character depending on the climate, the soil, the wind and the vegetation of the region where the olive trees are located. This is why we classify our products by different characters and identities. So, we offer our consumers products that have their specific identities and characteristics.
